

AMARYLLIS BULB PRE-ORDER FORM

Advance payment is NOT required. Return the completed form to *Under the Pecan Tree* or email it to amanda_thanksyall@bellsouth.net. If it's easier, text a picture of the bottom half of this page to 770-377-2811... or just call 678-694-8704 to dictate the information. If you wait too long, there may not be enough bulbs in the variety you want.

- This year, pre-orders must be for bulbs in quantities of ten (10) – of the same variety and treatment.
- If you don't need ten bulbs, consider sharing an order with a friend.
- If you can't get to the minimum, don't fret! Subscribe to the newsletter and specifically the *Amaryllis Bulb Bulletin* list to be the first to know when the bulb shipment arrives. (Opt in below)
- We will also post bulb arrivals on Facebook and Instagram.
- You can choose to be in the first wave of bulbs (likely arriving Nov 1 – Nov 15) or the second wave (likely arriving Dec 1 – Dec 15).
- When any bulb variety on your order arrives, you will be CALLED. **Please consider putting 678-694-8704 in your phone so you'll know it's Under the Pecan Tree calling.** You will have ONE WEEK to pick up your bulbs before they'll be returned to inventory. We will of course work with you if you are traveling, etc.
- Bulbs in the November shipments should be blooming before, during and after Christmas; you can slow the growth by storing them in a cool place. If you are using these to decorate, select November.
- Bulbs in the December shipments will likely not bloom until after Christmas; they'll bloom thru February or longer.
- Important: Bulbs should NOT be placed too close to windows or a draft, because when the temperature drops at night and the bulbs feel the cool air, it takes the bulb 12 hours to recover. They will be confused. They'll think it's not time to bloom yet, and blooming will be delayed.
